All radio-phonographs may look pretty much alike to you . . . but there can be a big difference in the listening. You will get far more enjoyment out of a set that's built up to a standard than you will from one that's built down to a price. And you don't have to be an expert to tell the difference. You can be sure if it's Westinghouse.

Westinghouse radios and radio-phonographs are available in a wide variety of models. The one shown here is the 186, which has exclusive Automatic record changer, Electronic Fidelity reproducer, and Rainbow Tone FM. The low-front cabinet is a Westinghouse classic. "What's past is prologue" is a quotation by William Shakespeare from his play *The Tempest*.

The phrase was originally used in *The Tempest*, Act 2, Scene I. Antonio uses it to suggest that all that has happened before that time, the "past", has led Sebastian and him to this opportunity to do what they are about to do: commit murder, or make another choice.

"What is past is prologue", inscribed on *Future* (1935, Robert Aitken) located on the northeast corner of the [National Archives Building](#) in Washington, DC
